

East Cobb Middle School

FOUNDATION

The ECMS Foundation is a 501(c)(3) nonprofit, volunteer organization that raises funds from individuals, businesses and foundations to support East Cobb Middle School. Our vision is a school embraced by its community, where all students realize their potential, where striving for excellence is the norm, and where every student feels safe, loved, and celebrated.

Since the Foundation was formed in 2003, your support has funded...

- Challenge Day at ECMS ('08, '09, '10, '11)
- Outdoor classroom
- Teacher classroom wish lists
- Computers, software, and curriculum materials for math, plus BrainPOP
- Books, murals for the media center
- LCD projectors for classrooms
- Sound and recording equipment for performing arts and ECTV
- Award-winning STEM programs

This year, the ECMS Foundation is raising funds for ...

A grounds fund to eliminate flooding, beautify the students' surroundings and offer outdoor learning at the school's aging campus.

IXL online math, which inspires kids to practice more and lets teachers offer harder work to students who can handle it and targeted instruction for those who need it.

BrainPOP, animated online content to engage students in science, social studies, English, math, arts, music, health and technology.

Classroom cameras that quickly project on to screen or whiteboard documents, photos or live lab experiments to save time and paper and bring far more resources into day-to-day instruction.

Challenge Day for all 7th graders.

- public thanks at school functions
- logo on Challenge Day T-shirts and banners
- feature story on Foundation Web site, Facebook, ECTV
- customized recognition packages

Challenge Day: No one left unchanged

For four years, the EMCS Foundation has brought Challenge Day to the school’s 7th graders. No one left unchanged.

“I’m different. Before I say things, I think about how it might make someone feel.” — ECMS 7th grader

About 1,600 students and 400 volunteers have experienced first-hand how to connect with others and break down barriers among people of different backgrounds. Help us continue this amazing experience for ECMS 7th graders for years to come.

“When I read about bullying, when people talk about the future of public education, I can’t imagine a better solution than more schools giving their students the gift of Challenge Day .” — Parent volunteer
